Celebration of Gender Equity Week

Introduction:

Gender equity is achieved when women and men are given equal rights and opportunities in every walk of life that includes economic liberty and self-assertion. In today's globalized world, women have reached almost all possible heights of achievement. Consequently, the issue of gender equity has become a significant aspect of our world. Therefore, denying their contribution in the betterment of our world would be injustice to them. In Indian society, one may easily observe that our society is male-dominated and patriarchal that considers women as inferior. There has been a huge amount of gender discrimination that begins right from the childhood of any girl. In order to change this gender biased outlook of our world, we have to make efforts in that direction. Hence, it is a need of time that we should cultivate the value of gender equity in our students. Keeping this in mind, the college has initiated a best practice entitled 'Celebration of Gender Equity Week'

Objectives:

- ✓ To create an enabling environment that is free from gender bias.
- ✓ To promote gender equality and diversity on a campus through education.
- ✓ To identify and remove gender inequalities that may exist, i.e. denying women (both staff and students), fair access to resources employment opportunities, advancement and academic achievement.
- ✓ To bring awareness of gender equity.
- ✓ To celebrate the social, economic, cultural, and political achievements of women.
- ✓ To promote and raise awareness of women's rights.
- ✓ To achieve equal opportunity and status for both genders.

The Context:

Our college is situated in hilly and rural area of Shahuwadi tahsil of Kolhapur district. The students of our college belong to deprived and downtrodden classes of the region. There are 54% girl students who reside within the circumference of 35 kms. They have to travel every day from their native places to the college. Hence, it is very necessary to enlighten them

regarding their rights and privileges bestowed upon them by Indian constitution. The idea behind this activity is to strengthen the so called weak gender.

The Practice:

Women's Cell and Prevention of Sexual Harassment committee of Prof. Dr. N. D. Patil Mahavidyalaya, Malkapur organize gender equity week in order to sensitize all regarding the gender issues. An exciting program of events is planned for all staff and students, including health check-up camp, various informative lectures, and various competitions. In the current academic year 2018-19, there were more than 112 girl students present for the every program.

Celebration of 'Gender Equity Week' commenced on Monday, 21st Jan.2019 with a rally organized by college. The aim of this activity was to create awareness about gender equity among the people in a society. Various slogans were made for it. A rally was started from college and ended in the yard of Malkapur Municipal Corporation.CEO of Malkapur Municipal Corporation addressed to the students. On Tuesday, 22nd essay competition was conducted. The topics given to this competition were 1.Male-Female Equality. 2. Challenges before Modern Women.3.Women- Yesterday, Today and Tomorrow. Four students participated in this competition. On Wednesday, 23rd Rangoli competition was held on the theme of this competition was Gender Equity. Total nine students participated in it. Students have drawn beautiful colorful Rangolies in this competition. On Thursday, 25th a Guest Lecture of Mrs. Nidhi Chene, Director of Nari Foundation, Kolhapur was organized. She has delivered a nice lecture on 'Women's Health and Hygiene'. It was much useful to girl students. On Monday, 28th A survey on male-female ratio in Malkapur region was organized. This task was allotted to fifteen students. Each student has taken a survey of five families to find out a male-female ratio. On Tuesday, 29th a Guest Lecture of Hon. Mrs Saroj Patil (Mai) ,General Body Member of Rayat Shikshan Sanstha, Satara and member of College Development Committee of Prof. Dr. N. D. Patil College, Malkapur delivered a nice lecture on ' Women Empowerment'. She has shared her own experience related to her empowerment. It was an inspirational speech to the students.

Evidences of Success:

- ✓ As a result of this activity, our girl students became more and more conscious about their own existence as a girl in the society.

- ✓ The activity has infused an altogether different confidence in our girl students who have learnt to raise their voice against the gender biased treatment given to them by the people surrounding her.
- ✓ The activity made our girl students aware of the self defence at the time of facing hooliganism in the society.
- ✓ Our girl students have become health conscious due to the health check-up camp during the gender week.
- ✓ The present activity also gave our girl students an opportunity to express their deep feelings regarding their being a woman through *Rangoli* Competition.
- ✓ The wallpaper presentation on the theme of gender equity and female foeticide brought cruel realities of our world to the surface that enlightened all our students.

Problems Encountered and Resources Required:

- ✓ Many of our girl students had been unaware of the ‘gender equity’ as a significant term related to the lives of women. They didn’t have any idea of what ‘gender equity’ is. However, as they came to know about the importance of the present ideology, they became enthusiastic about the proposed events.
- ✓ The participation of the girl students in Health Check-up Camp was relatively lower than expected.
- ✓ Since the college receives its students from rural area, initially, the girl students had been shy. However, after motivating them, they actively participated in the event.
- ✓ For the present activity, a good number of resource persons were invited who had been well read in this area of knowledge.
- ✓ The activity also required ICT based seminar hall and other supportive equipment’s.

Best Practice-II

Farmers' Gathering

Title of the Practice: Farmers' Gathering

Objectives of the Practice:

- i) To mediate between local farmers and agricultural experts by providing platform for interaction between them
- ii) To impart information about the modern technology to increase production of various agricultural crops
- iii) To motivate farmers to turn towards inorganic farming

The Context:

Prof. Dr. N. D. Patil Mahavidyalaya is belongs to Shahuwadi tehsil which is a part of Kolhapur district. The tehsil is hilly and rural. Also it is a part of the Western Ghats. Therefore, it receives heavy rainfall in the monsoon season. Much of the population in Shahuwadi depends on agriculture. Major crops in the region are rice, sugarcane, sweet potatoes etc. These farmers use traditional techniques for their production due to lack of knowledge and information about modern technology to increase the production.

The Practice:

The college has taken initiative to organize farmers' gathering every year. It mediates between local farmers and agricultural experts by providing platform for interaction between them. It is a collaborative activity D. Y. Patil Education Society's *Krishi Vigyan Kendra*, Talsande. Agricultural scientist/experts are invited to share their expertise with local farmers. Similarly, farmers also actively participate in the activity and interact with them.

Evidence of Success:

These farmers' Gatherings have proved beneficial to local farmers as the experts in the fields enlightened them for increase in the production. At the time of feedback, many farmers insisted the college authority to organize such gatherings frequently on other crops too.

Problems Encountered and Resources Required:

As the region is quite hilly and rural, we get difficulty in communicating with farmers. Farmers also face problems of transportation. In 2020-21, many farmers had trouble in joining online Farmers' Gathering due to geographical constraints and internet connectivity.

Report on
'Gender Equity Week'

- ✓ **Committee:** Women's Cell
- ✓ **The Name of the Activity:** Celebration of Gender Equity Week and International Women's Day
- ✓ **Date:** 8th March to 13th March, 2021
- ✓ **Venue:** Hall No. 30
- ✓ **Number of Participants:** 75
- ✓ **Aims and Objectives:**
 1. To create an enabling environment that is free from gender-bias
 2. To promote gender equality and diversity on a campus through education
 3. To identify and remove inequalities that may exist i.e. denying women (both staff and students) fair access to resources, employment opportunities, advancement and academic achievements
 4. To establish dignity, self-esteem and respect for women without any gender bias in the system.
 5. To celebrate social, economic, cultural and political achievements of women
 6. To promote and raise awareness of women's' rights
 7. To achieve equal opportunity status and enabling environment that is free from gender-bias

✓ **Nature of the Activity:**

In the academic year 2020-21, Women's Cell of Prof. Dr. N. D. Patil Mahavidyalaya, Malkapur has organized 'Gender Equity Week-2021' during 8th March to 13th March 2021 in order to sensitize all the students regarding gender issues. An exciting program of events was planned for all the staffs members and students which includes an informative guest lectures about women's health and various competitions.

To celebrate 'Gender Equity Week' as well as 'International Women's Day', online quiz was organized (Monday, 8th march 2021) to all the students in the college. This quiz covered topics regarding history of international women's day, various achievements of women's, eminent female personalities etc. There were more than students participated for this online quiz.

On the second day of 'Gender Equity Week', Poster presentation on the subject of 'Gender Sensitization' was held. It enables students to try explaining a gender sensitization concept in different ways. On Wednesday, 10th March

2021, Poetry writing competition on the subject like Gender Equity, Gender equality, women's empowerment was held. It helps students to share how young girls and women perceive their educational, economic, and professional opportunities, and how much difficulties they faced through poems. On Thursday, 11th March 2021, slogan writing competition was held. Various types of slogans about women empowerment were presented by students. On the second last day of the week, a gender equity survey was organized. Students and faculty members are requested to fill a google form on that day which was available on their email as well as what's app group. This survey was organized to check what they think and actually do in real life situations when there was a gender discrimination.

On Saturday, 13th March 2021, a guest lecture on 'Women's Health' by Dr. Varsha Thombare, Primary Health Center, Malkapur was organized by the cell. She explained us the importance of our health. Women are always perceived as the decision-makers for the source of health care for their families. They often delay self-care as they attend to the care of their family or children. She explained to us that women are not just men with reproductive capacity. She shared various experiences about women's health she came across during her career.

✓ **Support of Teaching and Non-Teaching Staff:**

1. Smt. Phadatare S. S
2. Miss. Kamble P. B
3. Mrs. Kamble S. J

✓ **Outcomes:**

1. The students became aware of gender equity
2. The girl students become aware of their rights
